PY Yacht – RIB PY120 GS

PY120 GS doesn't follow trends. It sets them.

The **PY120 GS** is designed for a demanding owner who seeks speed, space, prestige, and emotion at sea. A **13.80-metre maxi RIB, certified as a pleasure craft**, it combines a true racing spirit, sculpted design, and uncompromising comfort.

PY120 GS

Its wide, muscular **deck** is conceived to enjoy the sea from every angle: generous social areas, expansive sun pads, and a carefully engineered layout that maximizes every space. The central console, **sporty T-Top**, and sharply raked windscreen define an aggressive, dynamic silhouette inspired by the world of high performance.

At the heart of the PY120 GS lies a **high-performance hull**, developed to deliver stability, steering precision, and safety even in demanding conditions. The multi-engine configuration enhances the boat's sporty soul, providing instant acceleration, top speeds, and total control.

The **forward sun pad**, with dual front-facing seating, becomes a true solarium—perfect both underway and at anchor. At the stern, the large sun pad lifts to reveal a deep, spacious storage compartment, ideal for extended time on board. The side platforms expand the bathing area and feature a concealed stainless-steel swim ladder.

The **cockpit** hosts a large sofa and an electrically operated adjustable table, creating an elegant and versatile living area. The helm station, equipped with the latest-generation electronics, offers excellent ergonomics, visibility, and comfort even at high speeds. The integrated galley includes a hob, sink, worktop, and a large-capacity refrigerator.

Below deck, the **interior** features a forward owner's cabin, an aft berth, and a fully equipped bathroom with WC, washbasin, and separate shower—comfortably accommodating up to four adults for an on-board experience without compromises.
